INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Members of Regency Affiliates, Inc. and Subsidiaries

Opinion

We have audited the accompanying consolidated financial statements of Regency Affiliates, Inc. and Subsidiaries (a Delaware corporation), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the related consolidated statements of income, changes in equity, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Regency Affiliates, Inc. and Subsidiaries as of December 31, 2021 and 2020, and the consolidated results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of Security Land and Development Company Limited Partnership and Subsidiary, which, as discussed in Note 2 to the financial statements, is accounted for by the equity method of accounting. The investment in Security Land and Development Company Limited Partnership and Subsidiary was \$56,106,836 and \$55,397,915 as of December 31, 2021 and 2020, respectively, and the equity in its net income was \$1,578,190 and \$2,001,891, respectively, for the years then ended. The financial statements of Security Land and Development Company Limited Partnership and Subsidiary were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Security Land and Development Company Limited Partnership and Subsidiary, is based solely on the report of the other auditors.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Regency Affiliates, Inc. and Subsidiaries and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Regency Affiliates, Inc. and Subsidiaries' ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

ROSENBERG RICH BAKER BERMAN & COMPANY

To the Board of Directors and Stockholders of Regency Affiliates, Inc. and Subsidiaries

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Regency Affiliates Inc. and Subsidiaries' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial
 doubt about Regency Affiliates Inc. and Subsidiaries' ability to continue as a going concern for a reasonable period
 of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Note 1. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements are presented on an accrual basis in accordance with U.S. generally accepted accounting principles ("U.S. GAAP") as defined in the Financial Accounting Standards Board ("FASB") Accounting Standards Codification (the "Codification").

Nature of Operations

Regency Affiliates, Inc. ("Regency" or the "Company") invests in assets that generate attractive, predictable and sustainable returns on capital. The Company's objective is to generate long term value for its shareholders. Management seeks sound investment opportunities to meet its business characteristics and valuation criteria.

The Company holds a limited partnership interest in Security Land and Development Company Limited Partnership ("Security Land"), which owns and operates 34.3 acres of land and rental property of approximately 717,000 square feet in Woodlawn, Maryland, which is occupied by the United States Social Security Administration's Office of Disability and International Operations. In November 2000, the Company acquired a 5% limited partnership interest in 1500 Woodlawn Limited Partnership, the general partner of Security Land. See Note 2, "Investment in Security Land and Development Company Limited Partnership."

In addition, Regency Power Corporation ("Regency Power", 100% owned subsidiary of the Company) owned a 50% interest in MESC Capital, LLC, a Delaware limited liability company ("MESC Capital"). MESC Capital owns a 100% interest in Mobile Energy Services Company, LLC, an Alabama limited liability company ("Mobile Energy"), which owns an on-site energy facility that supplies steam and electricity to a Kimberly-Clark tissue mill in Mobile, Alabama. See Note 3.

In April 2016, Regency formed a new, wholly owned subsidiary, RSS Investments LLC ("RSS"). RSS acquired a majority ownership (80%) of SSCP Harrisburg Holdings, LLC, a Delaware limited liability company ("Harrisburg Holdings"). Harrisburg Holdings is the sole member of SSCP Harrisburg Intermediate Holdings, LLC, a Delaware limited liability company ("Intermediate Holdings"). Simultaneously with RSS's investment in Harrisburg Holdings, Harrisburg Intermediate Holdings acquired a portfolio of five self-storage facilities in Harrisburg, Pennsylvania. Through our controlling interest of SSCP Harrisburg Holdings, LLC, we are focused on the ownership, operation, and acquisition of self-storage properties located within the Harrisburg, Pennsylvania area.

Principles of Consolidation

These consolidated financial statements include the accounts of the Company, and its wholly owned subsidiaries, Regency Power and RSS. All intercompany balances and transactions have been eliminated in consolidation.

Noncontrolling Interest

The Company consolidates its 80% equity interest in Harrisburg Holdings and reports the remaining 20% interest by the third party, SSCP Management, LLC, as a noncontrolling interest on the consolidated balance sheet. At December 31, 2021 and 2020, the noncontrolling equity interest was \$361,648 and \$173,670 respectively. The net income or net loss of Harrisburg Holdings is allocated based on the ownership percentages on the statements of income. For the years ended December 31, 2021 and 2020, Harrisburg Holdings had net income of \$1,071,152 and \$525,891, respectively, resulting in net income attributable to the non-controlling interest for the years ended December 31, 2021 and 2020 of \$214,230 and \$107,714, respectively.

Note 1. Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents

Cash and cash equivalents represent cash and short-term highly liquid investments with original maturities of three months or less. The Company places its cash and cash equivalents with high credit quality financial institutions that may exceed federally insured amounts at times. As of December 31, 2021 and 2020, the Company had no cash equivalents.

Restricted Cash

The self-storage properties hold escrow funds in money market trust accounts for real estate taxes, insurance, and replacement reserves disbursements to be paid when due, pursuant to the terms of the bank financing agreement.

Short-Term Investments

Short-term investments consist of treasury bills with original maturity dates greater than three months at the date of purchase. The Company classifies its Treasury Instruments as held to maturity. The short-term investments are valued at cost, which approximates fair value. As of December 31, 2021 and 2020, the Company's short-term investments were \$6,177,808 and \$5,949,471, respectively.

Investments in Partnerships/LLC

The Company uses the equity method of accounting for its investments in partnerships in equity securities in which it has more than a 20% interest but does not have a controlling interest and is not the primary beneficiary. Investments owned over 50% with a controlling interest are consolidated within these financial statements.

Self-Storage Properties

Self-storage properties are carried at historical cost less accumulated depreciation and any impairment losses. Major replacements and betterments, which improve or extend the life of an asset, are capitalized. Expenditures for ordinary repairs and maintenance are expensed as incurred and are included in self-storage cost of operation. Estimated depreciable lives of self-storage properties are determined by considering the age and other indicators about the condition of the assets at their respective dates of acquisition, resulting in an estimated useful life for assets within each category. All self-storage property assets are depreciated using the straight-line method. Buildings and improvements are depreciated over estimated useful lives of 39 years; furniture and equipment are depreciated over estimated useful lives of 7 years. The cost of the land is not depreciated. Repairs and maintenance costs are expensed as incurred.

When a self-storage property is acquired in a business combination, the purchase price of the acquired self-storage property is allocated to land, buildings and improvements, furniture and equipment, customer in-place leases, assumed real estate leasehold interests, other assets acquired and liabilities assumed, based on the estimated fair value of each component. When a portfolio of self-storage properties is acquired, the purchase price is allocated to the individual self-storage properties based on the fair value determined using an income approach with appropriate risk-adjusted capitalization rates, which take into account the relative size, age and location of the individual self-storage properties.

Note 1. Summary of Significant Accounting Policies (continued)

Self-Storage Properties (continued)

These items consist of the following at:

Depreciation expense on these properties was \$786,037 and \$782,454 for the years ended December 31, 2021 and 2020, respectively.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Depreciation is provided over the estimated useful lives of the assets using the straight-line method as follows: machinery and equipment - 7 years. Repairs and maintenance costs are expensed as incurred that do not extend the life or functionality of the asset.

These items consist of the following at:

	Dec	cember 31,	De	ecember 31,
Machinery and equipment	\$	50,462	\$	46,368
Less: Accumulated depreciation		(39,467)		(34,459)
Property and equipment, net	\$	10,995	\$	11,909

Depreciation expense was \$5,008 and \$5,424 for the years ended December 31, 2021 and 2020, respectively.

Income Taxes

The Company utilizes FASB ASC 740-10, "Income Taxes", which requires an asset and liability approach to financial accounting and reporting for income taxes. The difference between the financial statement and tax basis of assets and liabilities is determined annually. Deferred income tax assets and liabilities are computed for those temporary differences that have future tax consequences using the current enacted tax laws and rates that apply to the periods in which they are expected to affect taxable income. In some situations, FASB ASC 740-10 permits the recognition of expected benefits of utilizing net operating loss and tax credit carryforwards. Valuation allowances are established based upon management's estimate, if necessary. Income tax expense (benefit) is the current tax payable or refund for the period plus or minus the net change in the deferred tax assets and liabilities.

Note 1. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements, and also affect the amounts of revenues and expenses reported for each period. Actual results could differ from those estimates. Management utilizes various other estimates, including but not limited to, assessing the collectability of rents receivable, determining the estimated lives of long-lived assets, determining the potential impairment of intangibles, the fair value of stock options, the recognition of revenue, and other legal claims and contingencies. The results of any changes in accounting estimates are reflected in the financial statements in the period in which the changes become evident. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the period that they are determined to be necessary.

Revenue and Expense Recognition

Effective January 1, 2019, the Company adopted Financial Account Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 606, Revenue from Contracts with Customers ("ASC 606"). The guidance includes a five-step framework that requires an entity to: (i) identify the contract(s) with a customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenue when the entity satisfies a performance obligation.

Management has determined that all of its leases are operating leases and therefore these leases are outside of the scope of ASC Topic 606. We recognize rental income in accordance with ASC Topic 840, Leases. Substantially all leases may be terminated on a month-to-month basis and rental income is recognized ratably over the lease term using the straight-line method. Rents received in advance are deferred and recognized on a straight-line basis over the related lease term associated with the prepayment. Promotional discounts and other incentives are recognized as a reduction to rental income over the applicable lease term. Other property related revenue consists of ancillary revenues such as tenant insurance related access fees and commissions and sales of storage supplies with are recognized in the period earned.

For insurance income, the Company acts as an agent and recognized revenue for only its commission on the arrangement. The Company has a contract with the insurance carrier for acting as an agent, with a fixed commission amount. The performance obligation is satisfied, and revenue is earned at a point in time, which is when the Company sells a policy to a customer. This is evidenced by a signed contract. There is no variable consideration for this revenue stream.

Property tax expense is based on actual amounts billed or estimates of anticipated bills or assessments that have not yet been received from the taxing authorities. Cost of operations, general and administrative expense, interest expense, and advertising expenditures are expensed as incurred.

Advertising Expenses

The Company expenses advertising costs when incurred. Advertising and marketing costs totaled \$149,492 and \$105,170 for the years ended December 31, 2021 and 2020, respectively.

Note 1. Summary of Significant Accounting Policies (continued)

Stock-Based Compensation

The Company follows ASC Topic 718, Compensation - Stock Compensation, which addresses the accounting for stock-based payment transactions, requiring such transactions to be accounted for using the fair value method. Awards of shares for property or services are recorded at the more readily measurable of the fair value of the stock and the fair value of the service. The Company uses the Black-Scholes option-pricing model to determine the grant date fair value of stock-based awards under ASC 718. The fair value is charged to earnings depending on the terms and conditions of the award, and the nature of the relationship of the recipient of the award to the Company. The Company records the grant date fair value in line with the period over which it was earned. For employees and consultants, this is typically considered to be the vesting period of the award. The Company estimates the expected forfeitures and updates the valuation accordingly.

Fair Value Measurements

The carrying amounts of cash, restricted cash, prepaid expenses, accounts payable, accrued liabilities, deferred revenue, and other liabilities approximate their fair value due to the short-term nature of these instruments. Cash equivalents, consisting of U.S. Treasury Bills, are adjusted to fair value at each balance sheet date based on quoted prices which are considered level 1 inputs.

ASC Topic 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Fair value is defined as an exit price, representing the amount that would be received upon the sale of an asset or payment to transfer a liability in an orderly transaction between market participants. Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. A three-tier fair value hierarchy is used to prioritize the inputs in measuring fair value as follows:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- ➤ Level 2 Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable, either directly or indirectly.
- Level 3 Significant unobservable inputs that cannot be corroborated by market data.

Note 5. Income Taxes

As referred to in Note 1, the Company accounts for income taxes under FASB ASC Topic 740-10, Income Taxes. The deferred taxes are the result of temporary differences between financial reporting and tax reporting for depreciation, earnings from the Company's partnership investment in Security Land and the recognition of income tax carry-forward items.

The Company files consolidated income tax returns with its wholly owned subsidiaries. As of December 31, 2014, for regular federal and state income tax purposes, the Company has utilized all of its net operating loss ("NOL") carryforwards. The Company believes it is no longer subject to income tax examinations for years prior to 2014 by the respective taxing authorities.

The Company and the general partner of Security Land are in disagreement as to the manner in which taxable income of Security Land is to be allocated pursuant to the partnership agreement and applicable law, and for years 2004 through 2018, the Company has reported taxable income and loss from Security Land in a manner it believes is proper, but which was different than the manner reported by Security Land. An investigation or other action by the applicable tax authorities to resolve this difference could have an adverse impact on the Company's operations and financial results.

The Company's 2014 and 2015 tax returns are under examination by the Internal Revenue Service ("IRS").

Note 5. Income Taxes (continued)

To safeguard itself from any possible negative impact, in February 2016, the Company purchased an insurance policy and binder to insure against the negative tax consequences should any arise from the disagreement with Security Land regarding reported taxable income allocations. In 2016, the Company paid \$633,900 for the policy and binder which provide coverage of up to \$10 million over the next seven years in the event the IRS or a state taxing authority were to investigate and reject the Company's tax positions taken. The policy is subject to certain limitations, exclusions, and retentions.

For the years ended December 31, 2021 and 2020, the Company has recorded tax expense of \$39,709 and \$457,730, respectively, including expense (benefit) of \$(58,827) and \$114,064, respectively, for state income taxes. The Company's applicable statutory tax rates are 21% and 7.5% for federal and state tax purposes, respectively, for the years ended December 31, 2021 and 2020. The reconciliation of the Company's income tax expense for the years ended December 31, 2021 and 2020 is as follows:

Note 6. Contingencies, Risks, and Uncertainties

The Company is subject to numerous contingencies, risks and uncertainties including, but not limited to, the following that could have a severe impact on the Company:

A default in the Lease or sudden catastrophe to the Security West Building from uninsured acts of God or war could have a materially adverse impact upon the Company's investment in Security Land and Development Company Limited Partnership and, therefore, its financial position and results of operations.

Royalty, an affiliate of the Company's management, beneficially owns approximately 49% of the Company's common stock. As a result, Royalty has the ability to control the outcome of all matters requiring shareholder approval, including the election and removal of directors and any merger, consolidation or sale of all or substantially all of the Company's assets.

There are many public and private companies that are also searching for operating businesses and other business opportunities as potential acquisition or merger candidates. The Company will be in direct competition with these other companies in its search for business opportunities. Many of these entities have significantly greater financial and personnel resources than the Company.

The Company and the general partner of Security Land were in disagreement as to the manner in which taxable income of Security Land was to be allocated pursuant to the partnership agreement and applicable law, and for years 2004 through 2018, the Company reported taxable income (loss) from Security Land in a manner the Company believes is proper, but which was different than the manner reported by Security Land (See Note 5). This may result in an investigation or other action by the applicable tax authorities and any action taken by tax authorities to resolve this difference could have an adverse impact on the Company's operations and financial results. In February 2016, the Company obtained an insurance policy to protect against such losses, however, it may not be sufficient under all circumstances to cover all potential losses to the Company in the event of any such adverse determinations.

In September 2016, the Company received an Internal Revenue Service letter indicating its 2014 Federal Form 1120 was selected for examination. In September 2017, the Company received an Internal Revenue Service letter indicating its 2015 Federal Form 1120 was selected for examination. Management has submitted all documentation requested.

Note 6. Contingencies, Risks, and Uncertainties (continued)

The Company's operations may be affected by the recent and ongoing outbreak of the coronavirus disease 2019 (COVID-19) which in March 2020, was declared a pandemic by the World Health Organization. Governmental authorities in the States where we operate have taken and may continue to take measures in order to combat the spread of the disease including forced closures of business establishments. The full impact of the COVID-19 outbreak is unknown, resulting in a high degree of uncertainty for potentially extended periods of time. At this time, neither the duration nor scope of the disruption can be predicted, therefore, the negative impact on our financial position and operating results cannot be reasonable estimated. The results of this pandemic may have material adverse impact on the Company's financial position, operations, and cash flows. Possible areas that may be affected include, but are not limited to, disruption to the Company's customers and revenue, labor workforce, unavailability of products and supplies used in operations, and the decline in value of assets held by the Company which includes our investments in partnerships. The Company is closely monitoring the impact of the coronavirus (COVID-19) pandemic on all aspects of its business.

Note 7. Lease Commitments

In January 2016, Regency paid a \$201,329 security deposit and entered into a new, seven-year office lease agreement, for a 4,081 square foot space for its New York City location. Base rental payments under this agreement are \$74 per square foot per year, with a 1.75% fixed annual escalation. In addition, the Company is responsible to pay the tenant's share of real estate tax increases above the 2016/2017 base year and electricity usage. A rent concession has been granted to waive the first three months' rent. On the third anniversary of rent commencement, and provided the Company is not in default of any rental obligations, the landlord agrees to reduce the security deposit to six months' base rent, or approximately \$151,000. The lease also contains an early termination clause which is effective after five years, with proper notice and payment of an early termination fee. The office relocated in May 2016, the first month of the lease term. Rent expense for the years ended December 31, 2021 and 2020 was \$307,532 and \$307,532, respectively.

As of December 31, 2021, future minimum payments under this operating lease are as follows:

In July 2020, the rent was reduced to \$7,900 per month.

In addition, the SEP-IRA Plan allows participants to make elective deferral contributions through payroll deductions.

Note 10. Dividends

The Board of Directors has a dividend policy whereby the Board expects to declare a quarterly dividend to common shareholders provided that the determination to pay any cash dividends for any quarterly period will be made at the applicable time by the Board, in the Board's sole discretion, in compliance with the requirements of applicable law, and with consideration of the Company's future earnings and financial condition and other factors as may deemed appropriate for consideration by the Board. The dividend policy will remain in effect until the Board determines, in its sole discretion, that it is in the best interests of the Company and its common shareholders to terminate the dividend policy.

At December 31, 2021 and 2020 there was \$192,701 and \$159,683 of returned dividends included in accrued dividends.

Note 11. Mortgage Note Payable

These fees were recorded as a debt discount and are amortized over the life of the note. Amortization expense of debt discount was \$12,625 for the year ended December 31, 2021 and 2020.
